NEWBERN WEEKLY HAS 33RD BIRTHDAY

NEWBERN, Tenn., March 16. (Spl.)—The Newbern Tennessean this week is celebrating the thirty-third anniversary of its business. The late William W. Glass, established the Tennessean in March, 1888, and published the paper until his death three years ago, when his sons Leon P and William Q. Glass, took charge. Since the Ghast brothers took over the Tennessean the plant has been equipped with modern machinery and has become one of the best and widest read weeklies in the state.

The paper is now experiencing one of the greatest years in the history of the town, its circulation and advertising desirtment has increased more than 196 per cent. NEWBERN, Tenn., March 16, (Spl.)

ARKANSAS POWER CO. TO SPEND \$350,000

A Ten-Day Tube of Pepsodent. Send the coupon. Make this simple home test and see how your teeth look then.

Stain and Tartar Can Be Ended

They are due to film. Now you can daily combat that film and keep teeth whiter, safer and cleaner.

The ten-day test will prove this. The results are clear. And the book we send will tell the reason for them.

Make this test now. Millions have already done it. See for yourself the difference between film-coated teeth and clean teeth.

Your own teeth will tell you quickly what is best for you and yours.

use. Druggists everywhere are sup-

plied with large tubes. Millions of teeth show its benefits.

See How White Teeth Can Be Without Film

All Statements Approved by High Dental Authorities

Perhaps your teeth are clouded by a film. Most teeth are, more or less, save right after cleaning in a dentist's chair.

The cloudy film looks like the teeth, and you think the teeth are clouded. But it is the film. Remove it and see how teeth look then.

That viscous film which you feel with your tongue is the cause of most tooth troubles. It clings to teeth, enters crevices and stays. The tooth brush does not end it. The ordinary dentifrice does not dissolve it. So it stays - much of it and may do a ceaseless damage.

That is why so many brushed teeth discolor and decay. You leave the film, and that is the great tooth wrecker. Despite the tooth brush, statistics show that tooth troubles are constantly increasing.

How Teeth Are Ruined

That film is what discolors - not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. Dentists call the film "bacterial plaque." Those germs, with tartar, are the chief cause of pyorrhea.

Dental science has for years sought a way to combat this film. Periodic dental cleaning removed the film and tartar. But what was needed was a daily film combatant.

It has now been found. Convincing clinical and laboratory tests have amply

proved its efficiency. Able authorities endorse it. And now leading dentists all over America are urging its daily use.

For home use the method is embodied in a dentifrice called Pepsodent - a scientific product. And, to spread the facts, a 10-Day Tube is being sent to anyone who

Now Millions Know

Now millions know by actual test what Pepsodent can do. Everywhere you see the results in whiter, cleaner teeth.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day com-

Pepsin long seemed impossible. It must be activated, and the usual method is an acid harmful to the teeth. But science has discovered a harmless activating method. And now this film combatant can be every day applied.

Pepsodent needs no argument. The results are quick and apparent. See what it does, read the reason, then judge it for

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film

Compare the results with your old methods. See the effects you never saw before. The test will be a revelation to you. Mail the coupon to us today.

That Dreadful Message

can you tell what day the Police Department or the Hos-Ow pital will have to call your wife on the phone and tell her that you have encountered a serious accident? It happens every day to many men. Some of these men merely undergo the trial of physical pain-others have mental pain as an added calamity. The thought of "what will the family do while I am laid up."

The Barrier

An ACCIDENT INSURANCE POLICY is the barrier dividing the physical and mental pain. If you carry Accident Insurance your family is well provided for during the days of your incapacity.

Less than a week's salary out of your yearly income will bring you a compensating amount for each week of incapacity. The more serious your affliction the more benefit you derive from your policy.
